

Terminate Your Water Concerns Caused by Chlorine, Chloramine and Hardness.

The Puronics® Terminator® C with ChloroShield™ Clearess® media is specifically designed to utilize our proprietary Chlorostatic® Technology to reduce the levels of chlorine, chloramine and hardness typically found in municipal water. This whole-house water softener and conditioner system cost-effectively provides your family with the highest quality, healthy water using a multistep filtration process under the control of the intelligent iGen® valve. Chloramine (a combination of chlorine and ammonia) is commonly used to disinfect municipal water supplies, but could have potential side effects for people and fish. Chloramine is also very corrosive to lead water lines and copper plumbing. The Terminator® C gives you peace of mind...reducing potential risks and objectionable tastes and odors, with all of the benefits of softened water.

Hair and skin are soft and silky

Food and beverages taste better

Healthier for pets

Clearly refreshing water

PURONICS® Terminator® C

Pure Water Solutions®

Patented iGen® Computerized Control Valve

- ▶ iGen® intelligent digital microprocessor controls system operations
- ▶ Maintains 60 days of water usage history to maximize backflush/recharge efficiency
- ▶ Double backwash ensures a clean filter media bed
- ▶ Built-in diagnostics ensure consistent superior quality water
- ▶ Creates auto reserve so you never run out of quality water
- ▶ Durable, corrosion resistant 1" control valve construction guarantees years of trouble-free, efficient operations
- ▶ Downflow brining system ensures minimum water usage and efficient salt dosage

iGen® Digital Control Valve

Stainless Steel Tank

- ▶ Food grade 316L stainless steel provides a sanitary non-permeable surface for processing your water
- ▶ The only stainless steel tank certified to NSF standards in the water treatment industry

Chlorostatic® Technology Filter

- ▶ ChloroShield™ Clearess® media effectively reduces chloramine and chlorine from municipal water supplies
- ▶ Reduces objectionable chlorine and chloramine odor and taste
- ▶ Optimal efficiency reduces system operating costs

Softener and Conditioner

- ▶ High-Capacity S-759 monospheric resin has uniform sized beads for higher flow rates and efficiencies
- ▶ Reduces iron, turbidity and hardness

Clarifier

- ▶ Silica gravel polishes water to a sparkling clarity

This system is designed for use with municipal water or private well water that has been disinfected with chlorine or chloramine. ChloroShield™ Clearess® Media will reduce chloramine/chlorine taste and odor for up to 2,600,000 gallons of municipal water at normal service flow rates. Normal residential chlorine or chloramine level is 0.5 to 1 ppm. Higher levels of chlorine or chloramine may reduce the life of the media. Any private well application without chlorine or chloramine should use the base version of this system without Clearess®.

Your Authorized Independent Dealer:

Chlorostatic® Technology At Work In Your Home

- ▶ ChloroShield™ Clearess® filter media incorporates Chlorostatic® Technology filter to effectively reduce chloramine and chlorine from every tap in your home. ChloroShield™ Clearess® filter media has a limited lifetime warranty and eliminates the need for filter changes.

Quality You Can Count On

- ▶ Limited Lifetime Warranty on the entire water system. Covers manufacturing defects and workmanship

WQA tested and certified according to NSF/ANSI 44 for reduction of barium, radium, hardness minerals and NSF/ANSI 372 for low lead compliance.

PushSeal™ Fitting

- ▶ superior sealing protection

Backflush Tank

Float and Distributor Assembly

Potassium or Salt

Potassium or Salt Solution

Contaminants or other substances which can be removed by the Puronics® Terminator® C system are not necessarily in your water. Operational maintenance and replacement requirements are essential for the product to perform as advertised. Actual savings achieved are dependent on your particular spending habits and usage levels.
